

2019 CUYAHOGA COUNTY

Community Health Needs Assessment

Priorities

ELIMINATE STRUCTURAL RACISM

Racial bias across and within society. It's the cumulative and compounded effects of a range of factors such as public policies, institutional practices, culture representations, and other norms that work in various, often reinforcing ways to maintain racial inequity.

Individuals living below poverty level, 2017:

(* = Includes persons of Hispanic origin)

ENHANCE TRUST & TRUSTWORTHINESS

across sectors, communities & people

Research has consistently shown positive associations between generalized trust and health outcomes¹

¹ Giordano GN, Lindström M, Trust and health: Testing the Reverse Causality Hypothesis J Epidemiol Community Health 2016;70:10-16.

IMPROVE COMMUNITY CONDITIONS

Conditions where people live, learn, work and play affect a wide range of health risks & outcomes.
