

The Location Report Builder is a tool that allows you to build customized reports based on indicators and locations of interest, to help tell the story of your community. Below are step-by-step instructions on creating a custom report using the Location Report Builder.

STEP 3

To add an indicator click on "Indicators" in the toolbar. Indicators must be added one at a time.

Location Report Builder

The location report builder tool is an easy way to tell the story of your community in a beautiful and simple report. To get started select a location then add in indicators, maps, custom text and more to create a report that can be downloaded as a PDF and easily shared with others.

Substate Region: Healthy ..
