

What is a mini-dashboard?

Healthy Northeast Ohio partners have the option to host a mini-dashboard on their site. A mini-dashboard allows you to display indicators with icons to see how a specific indicator(s) and/or location(s) are doing compared to a selected comparison value. A mini-dashboard can include a link back to the Healthy Northeast Ohio website.

What types of mini-dashboards are available, and what do they look like?

There are three types of mini-dashboards to choose from. Below are descriptions and sample images of each type.

- 1. Multiple Indicators:** displays indicators for a selected location and comparison

- 2. Multiple Comparisons:** displays different comparisons for a selected indicator and location

- 3. Multiple Locations:** will display a collection of locations for a selected indicator and comparison

How do I request a mini-dashboard to host on my organization's website?

To request a mini-dashboard please complete the Host a Mini-Dashboard Request Form and submit it via the instructions on the form. This form includes the information that will be needed by the Healthy Northeast Ohio local administrators. Once the request is complete, the local administrators will send HTML code that can be copied and pasted in the HTML document that you would like to embed the mini-dashboard in.

To request a customized mini-dashboard to host on your organization's website, please fill out the form below. Please only fill out the details for the dashboard type you have selected (e.g., Multiple Indicators, Multiple Comparisons, Multiple Locations).

DATE REQUESTED: _____
